

U14+ Goal Assembly

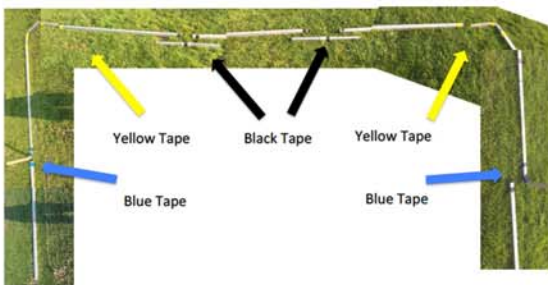

1. Verify parts
(Your goal color coding may differ from below.)

2 straight top bars (yellow/black tape)
 1 straight middle bar (black/black)
 2 straight middle connectors (black)
 2 corner top connectors (yellow)
 2 straight side bars (yellow/blue)
 2 corner bottom connectors (blue)
 2 straight bottom base bars (blue)
 1 net
 4 anchors, 1 mallet, 2 corner flags
 Note: Mallet if for pounding in stakes.

2. Layout parts in following order.

3. Find top of net and lay it out with goal pieces.

4. Assemble the goal top (5 straight pieces) and weave them through the top of net. Then weave the net thru the top corner parts and connect them to the assembled goal top.

4a. Assemble top pieces

4b. Weave corners & attach

5. Repeat the same with the 2 straight side bars - weave and attach.

6. Repeat the same with the 2 corner bottom connectors - weave and attach. The corner connector should point up

7. Repeat the same with the 2 bottom base connectors weave and then connect them with the bottom corner connectors.

8. Tip goal to a standing position. Move goal and center the goal on the back goal line. The bottom corners should be on the edge of the line with the rest of the goal behind it.

9. Stretch the net and tuck it under the bottom base bars so the back of the net is taunt. Use the 4 stakes to anchor the goal in place. 2 on each side.

10. Place mallet back in bag, zip it up, and place bag on top of the back of the goal to prevent balls from going thru.
